GENERATIONS MEMORY CARE

We believe deeply in providing personalized and tailored care for each of our residents. This is especially true for our residents who are living with dementia and Alzheimer's.

This is why we have created Generations Memory Care for our community.

UNPARALLELED CARE

Generations Memory Care follows the philosophy of a person-centric culture where one is a whole person first, the person they were and still are, and not identified by their disease or behaviors. We strive to celebrate and highlight the abilities of those we serve.

LOMA CLARA CARE PARTNERS

As a community with Generations Memory Care, we require our staff, known as care partners, to complete extensive certified training to better support residents living with memory loss. We emphasize techniques, teachable moments and meaningful engagement that lead to our care partners' making connections with each individual. Our care partners undergo extensive training in this process when hired, and are required to attend additional education sessions throughout the year.

Training and techniques taught in the program are inspired by some of the most respected leaders in the field of Alzheimer's and dementia care. These educational opportunities create an immersive environment focusing on the individual's strengths to foster moments of achievement.

VIBRANT LIFE®
BE VIBRANT. BE YOU.

Living a vibrant life at any age is a life worth living. At Loma Clara, residents take part in a special experience called Vibrant Life®. The program is an innovative approach designed to enhance and enrich our residents' lives with well-rounded and meaningful experiences. Thoughtfully designed to connect you with family, friends and the community, our Vibrant Life® program truly inspires, challenges – even dares you to be adventurous. LOMA CLARA

Elevate Dining Experience

Loma Clara is pleased to offer the Elevate dining program, our approach to transforming the dining experience, unlike any other, to celebrate, engage and elevate resident meals to be much more than simply a placeholder three times a day. Our signature experience addresses not only residents' palates, but their desire for purpose, growth and opportunities, recognition of a lifetime of memories, and the occasions to showcase their contributions to the lives of others through their own culinary signature items.

By providing these opportunities, we strive to utilize the passion and creativity of our culinary team to craft food that not only feeds the body but also nourishes the soul.

- A restaurant-inspired dining experience.
- A chef-created menu that focuses on resident and regional favorites.
- "Food for Thought" meetings that promote open communication between the residents and the culinary team to enhance the community's dining experience.
